Kelly, Bill: OK to use at this time? 5 people currently awaiting a call back

FYI, Website and desk statement received around noon today from our counterpart in R8:

<http://www2.epa.gov/goldkingmine>

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release.

EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>

Regular updates will be posted as they are available.

Please share if appropriate.

Types of calls being received in R8 and R9 libraries: Companies wanting to offer clean-up techniques, irate callers from all over the country, and the occasional supportive citizen. This is the statement (above) that we have been directed to use when speaking with the public.

There is no EPA person we can forward calls to, simply this statement and web site.

Deborra Cohen

Director, Environmental Information Center / Library
